MASTER PLAN APPLICATION

APPLICATION FOR AMENDMENT TO PLAN FOR THE 21ST CENTURY: NEW ORLEANS 2030 (THE MASTER PLAN)

Complete Application Required: Use this form for all requests to amend Plan for the 21st Century: New Orleans 2030 (the Master Plan). The City will not process an application that does not have all the required items. To accept your application, each of the items listed under Required Components must be submitted at the same time.

Early Consultation: Prior to submitting an application, the applicant is required to set up a pre-application conference meeting with a City Planner to discuss the proposal. City Planning staff will provide the applicant with assistance and information on the application feasibility, decision criteria, review time, and whether a Neighborhood Participation Program (NPP) meeting is required.

Application Acceptance: All applicants are required to bring in one copy of the application package for informal review by a staff planner, prior to the formal application to ensure that the application is complete. Applications will be accepted at the City Planning Commission between 8:00 AM and 5:00 PM Monday through Thursday and between 8:00 AM and 3:30 PM Friday. No appointment is necessary for the formal application submittal; however, an appointment with a City Planner is necessary for the early consultation. Mailed, faxed or e-mailed applications will not be accepted.

Purpose: The Master Plan is a long-term vision for the future of New Orleans. It contains policy recommendations across a spectrum of topics, but with a particular focus on the built environment. Amendments reflecting updated information, changing trends, best practices, or community goals are generally either text changes or revisions to the Future Land Use Map (FLUM). Text amendments affect the policies of the comprehensive plan on a City-wide level. Map amendments influence the potential uses and development of specific properties. A FLUM amendment may affect a site's zoning designation when zoning is revised comprehensively or when a zoning change application is submitted. Text and map amendments must be consistent with the overall policy intent of the Master Plan. Justification for the change(s) within the context of the Master Plan is the responsibility of the applicant.

When to Apply and Process: In 2016, the amendment application period will begin on April 25th and close on July 30th. Once the amendment application packet is submitted for review, the City Planning Commission will arrange a public meeting and publish a notice in a local newspaper of general circulation at least fifteen days in advance of the meeting. In addition to the public meetings, the City Planning Commission will hold a public hearing(s) to approve, approve with modifications, or disapprove the proposed amendments. A staff report and recommendations will be available to aid the discussion. The Planning Commission's recommendation will be forwarded to the City Council for final disposition.

REASONS FOR MASTER PLAN AMENDMENT REQUEST

NORF 2 GCE Green 3100 Banks St LLC is requesting a Future Land Use change for the property at 3100 Banks Street from Pre War Low Density to Mixed-Use Medium Density. This is a 17,000+ SF lot that was previously used as a 900 seat theater, an auto repair shop and a community center for a religious organization. Up until the CZO changed the zoning from B2 to HU-RD2 in August 2015 the site had maintained historic commercial zoning. We strongly believe that this large/unique parcel's inclusion in the Master Plan's Pre War Low Density land map designation is a mistake. This Future Land Use Change is intended to allow for increased density on the site, provide consistency between the Master Plan and any potential zoning changes, and promote the ability for this site to fulfill the overarching goals of the Master Plan.

The requested Mixed Use Medium Density Land Use would be better suited for this site to fulfill the goals of the Land Use Plan of the Master Plan listed in Chapter 14. These include revitalizing challenged neighborhoods with new development that contribute to character and new vitality, creating neighborhood centers with a mixture of higher-density housing, retail and other uses, avoiding new development where new infrastructure would be required, taking advantage of vacant land on higher ground for higher density uses, and promoting walkable, mixed-use environments.

Our development team previously applied for a Zoning Change for this site to HU-MU from HU-RD2. The City Planning Commission's staff report agreed with the assessment that this particular site would be better suited for a proposed mixed-use project in all criteria except for compatibility with the Master Plan Future Land Use Map. In addition to limited impact to parking and traffic, the report agreed that a Mixed-Use development on this site meets the following standards:

- Compatible with the place designations of the CZO
- Compatible with the existing use of nearby property
- Promotes the public health and welfare of the City
- More suitable classification for the property than the current classification
- More suitable as mixed-use than current classification considering context of development in the area in which property is located
- Compatible with the trend of development in the general area

While we understand the difference between Land-Use and Zoning, the requirement for compatibility outlined in Article 4 of the CZO necessitates our request for this Master Plan Map Amendment. This site would be most appropriately developed in a manner consistent with MUM land use. We ask that you approve this Master Plan Amendment to help us in our continued efforts to revitalize this neighborhood.

1. August 23, 2016 – 3100 Banks Street, New Orleans LA 70119 – 9 people in attendance.

Correspondence and Telephone Calls:

1. August 8, 2016 – letters mailed to contact list, including homes, apartment neighborhood associations, churches, and schools.

Results:

There were 211 persons/addresses invited to the community meeting. The majority of the questions and concerns were in reference to the future development at this site. NORF has previously filed for zoning changes on this site which were accompanied by development plans. As such, we have separated the comments into questions that have to do with the Master Plan Amendment under review currently, and questions regarding the future development and associated zoning.

The concerns surrounding the Master Plan Amendment are accompanied by NORF's response. Any questions specifically about a zoning change or our previous development plans are listed for future reference in the event that they become relevant for future applications:

1. Summary of concerns, issues and problems having to do with the Master Plan Amendment for a Future Land Use Change:
 - a. What will this allow you, as the owners, to develop?
 - b. What Land Use designation are you applying for, and why?
 - c. Will this affect the parking?
2. How concerns, issues, and problems will be addressed:
 - a. This Amendment would clear the way for zoning changes to this lot that allow for more density. There is a disconnect between the Low Density Pre-War Land Use designation and its size and historic use. The Mixed Use Medium Density designation would not immediately allow us to build anything different without a zoning change.
 - b. We are applying for the Future Land Use designation of Mixed Use Medium Density. The current map for MUM extends to within a block of 3100 Banks. We believe it makes the most sense to choose a land use designation that is already applied to properties in this immediate area.
 - c. A future development on this site that complied with the new Land Use designation would affect the parking in the immediate area. There is likely to be a commercial aspect of a future development, but this Amendment would not be enough to allow for that without a future zoning change.
3. Summary of concerns, issues and problems having to do with a Zoning change or the previous development plans. We are unable to answer these questions at this time because they depend on the results of this current Amendment. With that said, we appreciate the community input and hope to address any concerns if and when an zoning change is applied for at this site:
 - a. Are the units in your development one-bedroom units or efficiency units?
 - b. What parking will be required for your development and will you need a waiver.?
 - c. How can you apply for a zoning change after recently withdrawing an application?
 - d. What zoning are you applying for?
 - e. Can you change the development plan to include more parking or fewer units?

Re: 3100 Banks NPP meeting 8-23-16

Neighbors' Concerns

Request:

Will developers request Master Plan Land Use Map change from *Residential Pre-War Low Density* to *Mixed-Use Medium Density*?

Ideas/Question for NPP:

- Ask to confirm: "Mixed-Use Medium Density" is what they are specifically requesting? They omit words "Mixed-Use" in the letter but seems what they're asking.
- What zoning change do the developers plan to ask for?
- We would like a copy of the actual development plans which necessitate the request and subsequent zoning change. If plans are the same, which plans? If the same, how is an application for zoning change possible when there is a 2 year wait after withdrawal of plans to apply for the same or similar zoning change. Doesn't it have to be a different request and/or substantially modified plans in order to request a different zoning change?
- Other concerns: Height, number of stories, historic character, density, intensity of uses, alcohol, & parking.
- We hope our concerns will be properly included in the required NPP report.
